## CFOP MISSION STATEMENT

The *CHIROPRACTIC FELLOWSHIP OF PENNSYLVANIA*  
works to preserve, promote and defend  
the philosophy, science and art of chiropractic, with emphasis on  
the vertebral subluxation and innate principle.

Providing leadership through legislation, education, and communication, the  
*CHIROPRACTIC FELLOWSHIP OF PENNSYLVANIA* works to eliminate barriers  
that restrict access to or infringe upon the practice of chiropractic.

Through a highly trained staff, the *CHIROPRACTIC FELLOWSHIP OF PENNSYLVANIA* addresses  
professional and fellowship needs by providing practice information  
and benefits to enrich lives and practices.

# “PHILOSOPHY DAY”

**SATURDAY,  
OCTOBER 11, 2008**

**SPEAKERS:** Tom Petrisko, D.C., Sharon Gorman, D.C., Beth Risser, D.C., L.C.P.,  
David Smith, D.C., B.J. Harmon, D.C.,  
Skip George, D.C., L.C.P., Jim Dubel, D.C

**REGISTRATION:** 11:00 am to 12:00 pm  
**SPEAKERS:** 12:00 pm to 5:15 pm  
**SOCIAL TIME** 5:15 pm to 6:00 pm  
**BUFFET DINNER, DJ & DANCING:** 6:00 pm  
*Members and Non-Members invited:*  
**\$35.00** per person / includes Dinner

**HOLIDAY INN  
HARRISBURG EAST**  
4751 Lindle Road Harrisburg, PA. 17111  
(just off I 283 near the PA Turnpike)  
717-939-7841 for hotel information  
Rooms are \$109.00 + tax

**Call to Reserve 717-569-5731**

### REPLY FORM

Chiropractor's name: \_\_\_\_\_  
Phone no. \_\_\_\_\_ Fax no. \_\_\_\_\_ Email \_\_\_\_\_  
All Others Attending: \_\_\_\_\_  
**Method of Payment** (Please block print clearly)  
Attendance x \$35 = \_\_\_\_\_ Total enclosed Check # \_\_\_\_\_

**Remember October 11<sup>th</sup>, 2008, and make that commitment today.**

*(continued from page 3)*

*The reality is, it is only a health challenge and one that YOU created!! In this truth you now have options. You can pick the assistant/practitioner of your desire-one that resonates with your values and healing philosophies based on mutual support and empowerment and lifestyle changes. Not FEAR, control, intimidation and disempowerment. Yes, we do it also!!! “You have stage 2 spinal degeneration and you have to get adjusted for the rest of your life or you’ll have a horrible death, and your bunny will get run over.”*

You see if it is a “medical problem” versus a health challenge then by logic and programming, who is the only one who can “logically” take care of these “medical conditions”? Well of course, a “medical person”- what ever you label them as: an MD, DO, a nurse, and yes even our chiropractic physicians. This awesome marketing propaganda has worked beyond, I believe, even their own hope and intent. The tools used to “treat” these medical problems are drugs, surgery, therapy, etc. and look how our profession (not our vocation) is following suit!

To the point of being the most polluted, numbed out, drugged up society that has ever stepped foot on this planet. We have become so disconnected with who we are we forget our connection to everything. We have raped mother earth, we consistently kill each other, we shove drugs and poisons into our children in many forms: medications, shots and even the so-called food supply. As chiropractors we even changed our terminology to get acceptance from society and misled the public about our purpose and original intent handed down by DD. I love when I hear domesticated humans, who are “practicing”, make statements about the archaic and antiquated philosophy and that metaphysical stuff which has nothing to do with “modern” chiropractic. Well, those free humans who are serving TIC, understand what DD passed on from Spirit. “The purpose of the chiropractic adjustment is to reunite man the spiritual with man the physical, so that the finite may know itself as the Infinite.” DD Palmer, D.C.

Metaphysical? Meta=above or beyond + physical = beyond the physical

Well, what is it that does the healing? Meaning what is the source beyond the vehicle-beyond the body? One of the old mantras in chiropractic is “the power that made the body is the power that heals the body”. Well, kind of, and kind of not. What is in all those graves? BODIES!! So where is the “what” that was running the body? The metaphysical?

How about the power that made the body uses the body to experience life in this dimension and when it’s done learning it leaves the body to return to the metaphysical from which it came? So let’s stop “fixing” people, let’s stop “saving” people, let’s stop dishonoring and disempowering them and LET’S start setting them free-Free to do what they came here to do!!! No one outside of them knows exactly what that is and as long as they are subluxated and domesticated they don’t know either (no, I don’t meant the bone on a nerve mechanical Subluxation-but and interfearence to expressing your divine self kind of sub-lux-ation).

So who is willing to re-member?

Who is willing to free themselves?

A great prophet once said “only we can free ourselves-we have to emancipate ourselves from mental slavery”. Here is to setting them & us free!!!

**Lou Corleto, ChiropracTOR**

The only way to change the world out there, is to change the world in here! What did you come here to do? Treat carpal tunnel or assist people in re-membering who they be?? Martin Luther King showed us, via his life, that if you surrender to your mission, even in the face of “death”, you’ll be free!

TO BE DOMESTICATED, OR NOT TO BE DOMESTICATED?

THIS IS THE QUESTION TO ASK!

DOMESTICATION OF THE HUMAN BEING?

DOMESTICATION OF THE CHIROPRACTOR?

***By Lou Corleto, ChiropracTOR.***

How do we domesticate anything? Well, for me, it is simply “breaking” its Spirit. Teaching “it” to believe “it” is not what “it” truly is. We domesticate animals, plants, humans, and yes, even chiropractors. The methods we chose to use to domesticate varies, but the end result is the same—WE “forget” who WE ARE!!!

When we use the punishment reward cascade we get the domesticated “thing” to do as we wish, for “it” now is looking for acceptance outside of itself. Majestic animals will do tricks for a “bone”. Highly intelligent mammals once domesticated will do tricks for fish and a pat on the head. As humans, we will dishonor ourselves to our core in order to “get love”, get acceptance. Teens with peer pressure will smoke, drink, and take drugs to fit in, gang members will rape and kill to get in. We will tolerate abuse to have people like us. We do this so well, and for so long, we eventually do it to ourselves. We become Auto-domesticated ( a great term used by Don Miguel Ruiz).

Chiropractors, sadly have also become domesticated. In order to be accepted by the “real doctors” we fought to be called physicians, in order to rove our worthiness we sold our collective soul for insurance reimbursement and 12 “treatments” from Medicare.

To go from being “just a chiropractor” to becoming a DOCTOR we went from 18 months of deep TIC training to 4 years of deep Medical training. If we refer to the real doctors, those “patients” that have medical problems, we will get our pats on the head and play safe, and avoid getting into trouble for “delaying medical treatment”.

We feel safe in our “clinics” “treating” our musculoskeletal aches that the establishment will allow us to have. If you join the right PPO (pitiful provider organization) or the HMO (humiliating mutilating Organization) and fill out enough papers that satisfy your domesticator they might throw you a “bone” - \$\$\$\$\$

Humanity has been asleep for a long time. Chiropractors have chosen to domesticate their own!!!

Time to Wake Up!

Time to reclaim your Life

Time to become a free Human.

Time to become a free TOR.

Time to re-member who you BE!!!!

Scientists tell us that we use 7-10% of our brains. Well, if the scientists that came up with this conclusion only uses 7-10% of their brains, why should we listen to them?

When did Spirit, God, Allah, the cookie monster, what ever you want to call this Universal Intelligence—die and leave the allopathic model in charge? Why did humanity (& many chiros) fall for the purposeful brainwashing, via this dark force? The intentional use of words, consciously and subconsciously, programming people. When did a health challenge (what ever you want to label it: fever, infection system disorder, and yes, even CANCER) become a “medical” problem instead of a health challenge?

(continued on page 7)

The Council on Chiropractic Practice

## CCP continues work on guidelines

### Needs funds to complete 3rd edition

The Council on Chiropractic Practice (CCP) is in the final and most intensive phase of completing the third edition of its Clinical Practice Guideline, "Vertebral Subluxation in Chiropractic Practice."

During the next few months, the document will be finalized by the CCP Guidelines panel and sent to outside reviewers, chiropractors, representatives of the colleges, state boards, and other community stakeholders for their critical review and comments.

According to CCP President Christopher Kent, DC, the third edition is "a significant update of the evidence-based literature underlying subluxation-centered chiropractic. It responds to the changing scientific, clinical practice, legal and reimbursement environments and has added new sections (e.g., client satisfaction, woman's health, etc.), and a systematic review and update."

More than 1500 papers were reviewed for this revision and update. "Clearly, these new studies document the science underlying subluxation-centered care, and in so doing protect your rights to practice such care," Dr. Kent explained.

During the next phase of the guidelines preparation, the CCP will need funds to support the efforts of several editorial assistants, literature search services, correspondence costs, and on-line file hosting services.

"We are still seeking donations to finalize this important document," Kent stated. "Time is critical. The CCP needs your generous support to continue the evidence-based chiropractic guidelines process," Kent stressed. "The profession needs the recognition of a systematic and thorough documentation of the science underlying chiropractic. For the past 10 years, the CCP Guidelines have provided this level of documentation. To remain in force, updates are required every five-years which is why the third edition is so time sensitive."

Donations can be made online through Paypal at the CCP's website, [www.ccp-guidelines.org](http://www.ccp-guidelines.org) or by sending a check, made payable to Council on Chiropractic Practice, to: CCP, 2950 N. Dobson Rd. Suite 3, Chandler, AZ 85224.

## "VERTEBRAL SUBLUXATION AWARENESS WEEK" IN PENNSYLVANIA

The week of September 15 through September 19, 2008 will be introduced into legislature as Vertebral Subluxation Awareness in Pennsylvania.

Two things hold back the progress of humanity;  
subluxations and educated inhibitions.  
B.J. Palmer

**The Movement Has Begun  
New Beginnings For A New Future**  
Philosophy, Technique, Management  
Fellowship  
Come join the family !

September 25-28, 2008

Located at the beautiful  
Sheraton Eatontown, Eatontown, NJ  
732-542-6500  
(KID'S ROOM with live TV of speakers available)

**REGISTER ONLINE @ [www.nbchiro.com](http://www.nbchiro.com)**

## Focus Chiropractic

**MARK YOUR CALENDARS NOW!**

Focus will be starting up again in the Fall. This is a great Chiropractic Philosophy program hosted by Dr. Sharon Gorman. Focus Philosophy Nights are held at the Howard Johnson on Route 611 in East Stroudsburg.

The dates are:                    October 4th                    November 1st                    December 6th

More information on the speakers will be announced closer to the dates. ***Don't miss these!*** They are filled with great philosophy!

### 2008 FALL LYCEUM AND THE INTERNATIONAL RESEARCH AND PHILOSOPHY SYMPOSIUM (IRAPS)

**SHERMAN COLLEGE OF STRAIGHT CHIROPRACTIC**

**October 17-19, 2008**

Earn up to 12 hours of CE credit. IRAPS and Fall Lyceum will help you:

- Bridge the gap between chiropractic philosophy and research.
- Improve your understanding of chiropractic philosophy so you can better educate your patients.
- Discover subluxation evidence in research that validates the benefits of chiropractic — share this

with your patients!

Learn practice success tips to use in your practice right away.

In addition to valuable success programs, Fall Lyceum offers the International Research and Philosophy Symposium (IRAPS). This year's conference theme of the vertebral subluxation is of profound interest to the profession. Come, learn and grow with these speakers and more!

**FIND OUT MORE AT [www.sherman.edu](http://www.sherman.edu)**
